II

FEDERAL PERSONNEL IN THE EXECUTIVE BRANCH, MARCH 1948, AND COMPARISON WITH FEBRUARY 1948

(The following report is compiled from signed, official personnel reports by the various agencies and departments of the Federal Government. Table I of the report shows personnel employed inside continental United States, by agency. Table II shows personnel employed outside continental United States, by agency. Table III shows total personnel employed inside and outside continental United States, by agency. Table IV gives by agency the industrial workers employed by the Federal Government. For purposes of comparison, figures for the previous month are shown in adjoining columns.)

According to monthly personnel reports submitted to the Joint Committee on Reduction of Nonessential Federal Expenditures, the total Federal personnel for March increased 17,093 from the February total of 2,013,768 to the March total of 2,030,861. (See table III.)

Exclusive of the National Military Establishment, there was an increase of 7,838 from the February total of 1,177,078 to the March total of 1,184,916.

Total employment for the National Military Establishment showed an increase of 9,255 from the February figure of 836,690 to the March figure of 845,945.

The Office of the Secretary of Defense increased 76 from the February figure of 675 to the March figure of 751.

The Department of the Army reported an increase of 7,752 from the February figure of 382,204 to the March figure of 389,956. Inside continental United States the Army increased its civilian personnel 3,803; outside continental United States it increased 3,949.

The Department of the Air Forces increased civilian employment 1,651 from the February figure of 113,680 to the March figure of 115,331. Department of the Air Force figures cover civilian personnel within the United States only.

Department of the Navy reported a decrease of 224 civilian employees, from the February figure of 340,131 to the March figure of 339,907.

INSIDE CONTINENTAL UNITED STATES

Federal personnel within the United States increased 13,789 from the February total of 1,788,200 to the March total of 1,801,989. (See table I.)

Excluding the National Military Establishment, personnel inside the United States increased 8,400 from the February total of 1,122,017 to the March total of 1,130,417.

Total civilian employment within the United States for the National Military Establishment for March was 671,572, an increase of 5,389 over the February total of 666,183.

Department of the Army personnel within the United States increased 3,803 from the February figure of 255,798 to the March figure of 259,601.

The Department of the Air Forces increased civilian personnel within the United States by 1,651 from the February figure of 113,680 to the March figure of 115,331.

The Navy Department within the United States decreased its civilian employment by 141, from the February figure of 296,030 to the March figure of 295,889.

The Office of the Secretary of Defense increased 76 from the February figure of 675 to the March figure of 751.

OUTSIDE CONTINENTAL UNITED STATES

Outside continental United States. Federal personnel increased 3,304 from the February total of 225,563 to the March total of 228,872. (See table II.)

A decrease of 662 was reported in overseas civilian personnel by the departments and agencies other than the National Military Establishment, from the February total of 55,061 to the March total of 54,499.

Total overseas civilian employment for the National Military Establishment increased 3,866 from the February total of 170,507 to the March total of 174,373.

The Department of the Army reported an increase of 3,949 civilian employees overseas, from the February figure of 126,406 to the March figure of 130,355.

The Department of the Navy decreased its overseas civilian employment 83, from the February figure of 44,101 to the March figure of 44,018.

INDUSTRIAL EMPLOYMENT

Total industrial employment during the month of March increased 7,420 from the February figure of 551,131 to the March figure of 558,551. (See table IV.)

The departments and agencies, exclusive of the National Military Establishment, increased their industrial employment by 292, from the February figure of 20,285 to the March figure of 20,577.

The National Military Establishment increased its total industrial employment 7,128 from the February total of 530,846 to the March total of 537,974.

The Department of the Army increased its industrial employment 7,836 during the month of March, from the February total of 293,173 to the March total of 301,009. Of this total increase 3,931 was within continental United States and 3,905 was outside continental United States.

The Department of the Navy decreased its industrial employment 708 from the February figure of 237,673 to the March figure of 236,965.

The term "industrial employees" as used by the committee refers to unskilled, semiskilled, skilled, and supervisory employees paid by the Federal Government who are working on construction projects such as airfields, and roads, and in shipyards and arsenals. It does not include maintenance and custodial employees.

TABLE I.—Federal personnel inside continental United States employed by executive agencies during March 1948, and comparison with February 1948

Department or agency	February	March	Increase	Decrease
